

World Habitats

There are a lot of very different habitats around the world. How would you describe these habitats? What living things might you find there?

Rainforest

Desert

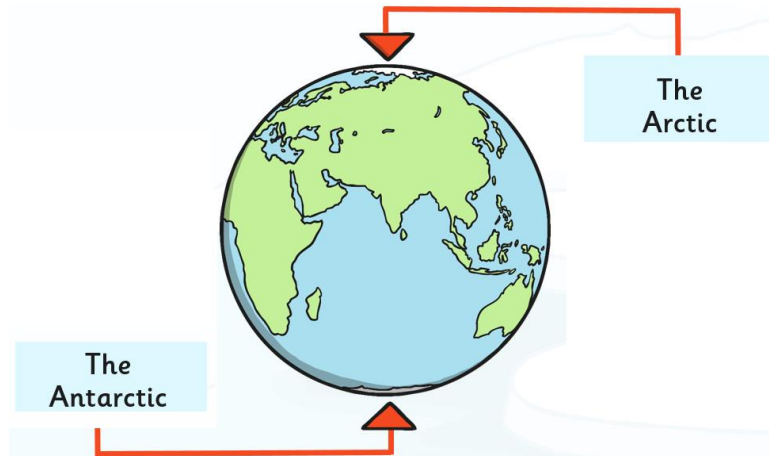

Ocean

Arctic

The Polar Regions

The Polar regions are made up of the Arctic and Antarctica. The Arctic is at the North Pole and Antarctica is at the South Pole.

Famous Polar Explorers

Captain Robert Falcon Scott

Captain Scott led two expeditions to Antarctica. The first took place 1901-1904. In 1910 he sailed away to begin his second expedition. During his expeditions he wanted to find out more about the animals, the weather and the land of Antarctica. Scott and his team also wanted to be the first to reach the South Pole.

851. Capt. Scott. April 18th 1911.

Sir Ernest Shackleton

Sir Ernest Shackleton and his crew set off in 1914 with the hope of being the first explorers to cross Antarctica. Sadly, their ship (called 'Endurance') became trapped in ice and they

had to sail a small lifeboat for 800 miles!

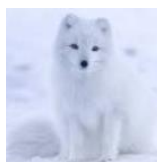

Key Vocabulary

Habitat	A natural environment or home of plants and animals
Adaptation	How animals and plants change to help them live in their habitat.
